

## 1. Availability of LMS on Institute Website

The Institute's official website serves as a comprehensive platform, providing a wealth of information related to various aspects of the institution. From faculty details and publications to student achievements, student placements, department activities, and project information, the website ensures easy access to essential data through a user-friendly interface. It also accompanied by syllabus books of various regulations and the extensive multimedia gallery which allows visitors to visualize institutes vibrant atmosphere through photographs and engaging content gains understanding of institutes ethos and culture. The work related to exclusive learning management system (LMS) portal accompanied with moodle courses incorporating modern technology into academic experience is also available. The Institute website features an interactive (LMS) through which faculty can efficiently conduct moodle courses.

The Institute LMS for posting learning resources by the faculty is shown in Figure 1.
