

Achievements in department of Mechanical in Academic Year: 2022-23

1..A one-day session on Bicycle Design was organized for III B.Tech Mechanical Engineering students under the ME Club at MLR Institute of Technology. The primary objective of the session was to expose students to modern bicycle engineering concepts and sustainable mobility solutions, while creating awareness about their significance in the evolving transportation and manufacturing sectors. A total of 42 members (including faculty) attended the session. The session commenced at 10:10 AM in the college seminar hall.

2. Vintage Expo 2k22 provides students with an opportunity to explore historical, cultural, and creative showcases that highlight design, innovation, and lifestyle trends from past eras. Through expert interactions, live demonstrations, and practical examples, students are introduced to concepts such as retro fashion, classic automobiles, heritage crafts, and vintage technology. These experiences help them understand how the aesthetics, functionality, and creativity of the past continue to influence modern design and innovation

3. On 16th November 2022, ME Club elections were conducted. The ME club has formed with a vision of conducting any event in MLRIT with full support of Mechanical Engineering students

4. On 03rd September 2022, in MLR institute of technology there was orientation program which is an inviting program for the newly joined first year students. On the day, all the departments and different clubs welcome the newly joined students and also impart confidence in them by expressing the strengths of the departments. As part of the program, Mechanical department has invited the new students. At the time, Mechanical HOD, Venkateswar Reddy has imparted the confidence in the students by expressing the strength of mechanical department in the college as well as in the entire south India that how Mechanical department wins SAEINDIA events.

5. On 30th November 2022, MLR institute of technology, Mechanical III year students and some of the mechanical faculties went to Mahindra and Mahindra company. The purpose of the visit it to gain knowledge on current scenario in the automobile industries. The students have seen the automation of manufacturing tractors and they expressed their happy feelings in visiting the industry. Professor Venkateswar Reddy, head of the mechanical department (HOD), motivated the students to be highly practical in learning the subjects by visiting different industries. And also he suggested other faculties to be an example for the students.

6. The total of 10 students of mechanical engineering had certified for tierII in Engineering Drawing and Material identification which is held at Matrusrri Engineering college ,Hyderabad

8. The students of mechanical engineering had participated in various sports and events in different colleges as well as in the college inter departmental competition and successfully competed in them

MLRIT
MECHANICAL ENGINEER'S CLUB
Department of Mechanical Engineering

BITS PILANI TOURNAMENT
2ND PLACE RUNNER UP BASKETBALL
Students from Mechanical are part of team

Mechanical Engineering
22R21A0308 - Goutham (1st year)
2nd year mechanical:
21R21A0301 - Sravan
20R21A0310 - Koushik
21R21A0321 - Sai Kiran
21R21A0326 - Sameer

Vijay Reddy - 20R21A0311 (3rd year)

PROUD OF YOU BOYS
Congratulations
